W2678

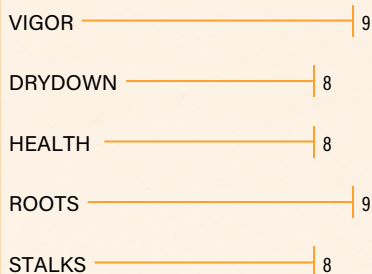

112 DAYS

AVAILABLE AS | VT2P RIB

Plant Height	Ear Height	Ear Type	Test Weight
Med-Tall	Medium	Semi-Flex	Very Good

- » Exciting addition to our 111-112 RM hybrid package
- » Excellent agronomics with high yield potential
- » This one puts it all together. Yield, grain quality, harvestability
- » Consistent performing, proven female with a new male that takes it to a new level.

10 = Superior, 9 = Excellent, 8 = Very Good, 7 = Good, 6 = Above Average

W2679

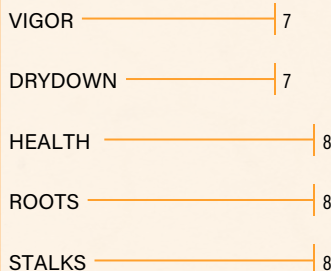

112 DAYS

AVAILABLE AS | DGVT2P RIB

Plant Height	Ear Height	Ear Type	Test Weight
Medium	Medium	Semi-Flex	Very Good

- » 111-112 day RM with unbelievable "STEP CHANGING" YIELDS
- » Very strong agronomic package that brings stability with yield
- » Excellent fall appearance and integrity for a smooth harvest
- » Very good stalks and roots, this hybrid will reward for high management

10 = Superior, 9 = Excellent, 8 = Very Good, 7 = Good, 6 = Above Average

W2685

113 DAYS

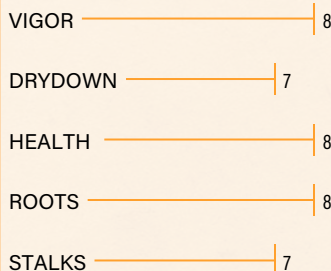

BRAND NEW!

AVAILABLE AS | TRECEPTA RIB

Plant Height	Ear Height	Ear Type	Test Weight
Medium	Medium	Semi-Flex	Good

- » "NEW" 113 day Trecepta® with outstanding yield punch that can run to those high levels
- » Very strong heat and drought tolerance
- » Overall very strong agronomically with very good roots
- » This hybrid flowers early and can take advantage of a long grain fill period for more bushels

10 = Superior, 9 = Excellent, 8 = Very Good, 7 = Good, 6 = Above Average

BRAND NEW!

W2693

113 DAYS

AVAILABLE AS | SS RIB

Plant Height	Ear Height	Ear Type	Test Weight
Medium	Medium	Semi-Flex	Excellent

- » Outstanding disease package for corn after corn a option
- » Very attractive hybrid with excellent fall appearance and staygreen
- » High yields, heavy test weight, and excellent grain quality
- » Consistent ear set and placement on the stalk equates to stable high performance

Rating Scales: 10 = Superior | 9 = Excellent | 8 = Very Good | 7 = Good | 6 = Above Average * = ASR (ANTHRACNOSE STALK ROT)

Before opening a bag of seed, be sure to read, understand and accept the stewardship requirements, **including applicable refuge requirements for insect resistance management**, for the biotechnology traits expressed in the seed as set forth in the Technology/Stewardship Agreement that you sign. By opening and using a bag of seed, you are reaffirming your obligation and agreement to comply with the most recent stewardship requirements.

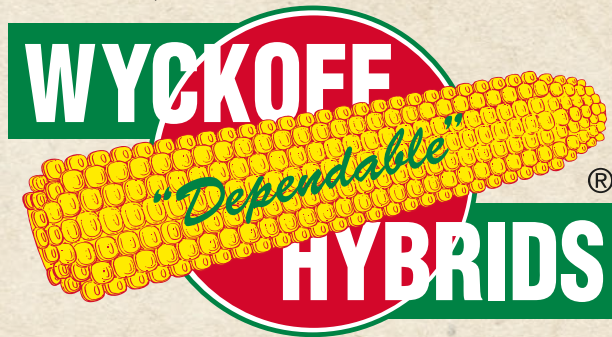

Bayer is a member of Excellence Through Stewardship® (ETS). Bayer products are commercialized in accordance with ETS Product Launch Stewardship Guidance, and in compliance with Bayer's Policy for Commercialization of Biotechnology-Derived Plant Products in Commodity Crops. Commercialized products have been approved for import into key export markets with functioning regulatory systems. Any crop or material produced from this product can only be exported to, or used, processed or sold in countries where all necessary regulatory approvals have been granted. It is a violation of national and international law to move material containing biotech traits across boundaries into nations where import is not permitted. Growers should talk to their grain handler or product purchaser to confirm their buying position for this product. Excellence Through Stewardship® is a registered trademark of Excellence Through Stewardship.

ALWAYS READ AND FOLLOW PESTICIDE LABEL DIRECTIONS. B.t. products may not yet be registered in all states. Check with your seed brand representative for the registration status in your state.

Refuge seed may not always contain the DroughtGard® trait. IMPORTANT IRM INFORMATION: Certain products are sold as RIB Complete® corn blend products, and do not require the planting of a structured refuge except in the Cotton-Growing Area where corn earworm is a significant pest. Products sold without refuge in the bag (non-RIB Complete) require the planting of a structured refuge. See the IRM/Grower Guide for additional information. Always read and follow IRM requirements.

  Roundup Ready® Technology contains genes that confer tolerance to glyphosate. Roundup Ready® 2 Technology contains genes that confer tolerance to glyphosate. Plants that are not tolerant to glyphosate may be damaged or killed if exposed to those herbicides. Insect control technology provided by Vip3A is utilized under license from Syngenta Crop Protection AG. Herculex® is a registered trademark of Dow AgroSciences LLC. Agrisure Viptera® is a registered trademark of a Syngenta group company. Respect the Refuge and Corn Design® and Respect the Refuge® are registered trademarks of National Corn Growers Association. Acceleron®, DroughtGard®, RIB Complete®, Roundup Ready 2 Technology and Design®, Roundup Ready®, SmartStax®, Trecepta®, VT Double PRO®, VT4PRO™ and VT4PRO™ are trademarks of Bayer Group.
